Career Objective

Passionate Information Science and Engineering student with a strong foundation in software development and modern web technologies. Experienced in building innovative projects and leading technical initiatives. Eager to contribute technical expertise while continuously learning and growing professionally.

Technical Skills

Programming Languages: Java, Python, JavaScript

Web Technologies: React, Node.js, Express.js, HTML, CSS

Databases: MongoDB, Neon

Tools: Git, VS Code, Jira

Core Subjects: Data Structures, Operating Systems, Computer Networks

Professional Skills

Problem Solving • Leadership • Communication • Time Management

Experience

Intern – Luxoft (DXC Technologies)

2025–Present

- Led a team of developers in designing, developing, and delivering AI-powered tools and web applications.
- Collaborated across teams to implement new features, resolve bugs, and enhance application performance and user experience.
- Built scalable full-stack solutions using modern web technologies while following industry best practices and agile development.

Projects

Analysis and Simulation Tool Suite

React, TypeScript, Python

- Developed a web-based platform for embedded code quality analysis and MCU simulation.
- Implemented interactive dashboards, code-fixing tools, and real-time simulation with backend API integration.

AUTOSAR Rule Visualizer

React, Python, Flask

- Developed an ARXML parser and interactive visualization tool.
- Built custom React Flow diagrams for AUTOSAR BSW rules.

Exam Guardian System

MERN Stack, AI

- Developed an AI-powered online examination platform with secure authentication and AI-based proctoring.
- Built a scalable MERN application featuring real-time monitoring and role-based dashboards.

Automated Face Attendance System

Python, OpenCV, Face Recognition

- Developed a facial recognition-based attendance system with automatic attendance marking based on the class timetable.
- Integrated real-time face recognition with subject-wise attendance automation.

Education

G M Institute of Technology Bachelor of Engineering – Information Science Engineering CGPA: 8.35	Karnataka 2023–2027
Government PU College Pre-University Course (Science) Score: 89%	Karnataka 2021–2023
Carmel Vidya Vikas School Secondary School Leaving Certificate (SSLC) Score: 88.6%	Karnataka 2021

Certifications

- **Java Course – Mastering the Fundamentals**
Scalar
Oct 2025
- **Responsive Web Design**
freeCodeCamp
Oct 2024

Achievements

- **Hacktoberfest 2025 – Super Contributor** (Ubiriq) – Recognized for impactful open-source contributions across UI, accessibility, and performance.
- **Winter of Code Social 2025** – Successfully completed the program as an Open Source Contributor, collaborating on real-world projects.
- **Top 10 Finalist – Hackathon**
Secured a Top 10 position at JNNCE Shivamogga by developing an innovative solution under time constraints.
Mar 2026
